Others

Parsons in Iraq

Ordnance Management (CEA)

- ❖ Start Date – August 2003
- ❖ Engineering, management, contract administration, and logistics support to ordnance contractors working at ordnance-processing sites throughout Iraq
- ❖ Help oversee ordnance and explosives cleanup, storage, and management
- ❖ Assess munitions future serviceability and destruction of selected munitions

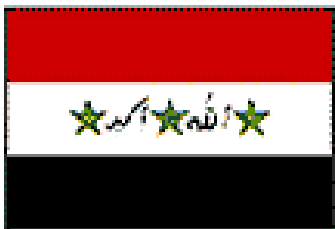

Parsons in Iraq

Ordnance Management (CEA)

- ❖ 5 contractors
 - ★ Allows COE to focus on combat missions
 - ★ Parsons is primary support
 - ★ EOD Technology, Tetra Tech, Zapata, USA Env
- ❖ Weapons Recovery
 - ★ 7 processing sites
 - ★ 2,100 staff on program
 - ★ 166 caches found, 103 cleared
 - ★ 112,000 tons found
 - ★ 90,000 tons processed
 - ★ 78,000 tons demilitarized
- ❖ More sites found every day

Parsons in Iraq

Restore Iraq Oil Infrastructure - North

- ❖ Parsons/Parsons E&C/Worley Team
- ❖ Clean up and restoration of oil fields, distribution pipelines, refineries, and infrastructure to prewar production levels
- ❖ Environmental assessments and site cleanups, design and construction to restore to safe operating condition, oilfield/pipeline/refinery maintenance
- ❖ Procure/import fuel products, distribution of fuel products within Iraq, technical assistance in marketing/sale/export

Parsons in Iraq

Infrastructure Reconstruction - USAID

- ❖ Parsons is Subcontractor to Bechtel
- ❖ Repair of municipal water and sewage systems; government and public facilities such as schools, ministry buildings, and major irrigation structures; restoration of essential transportation links
- ❖ Use of qualified Iraqi companies – provide training and work experience for Iraqi managers/employees

Parsons in Iraq

Infrastructure Reconstruction - USAID

- ❖ Program to include small businesses in the project. Activities will stimulate local economy—growth of employment, industries, and manufacturing
- ❖ Parsons scope is water and wastewater
- ❖ 4 Task Orders in progress
 - ✱ Baghdad solid waste landfill - Prebidding geotechnical and survey support
 - ✱ Rural water supply - Anticipate 600 Iraqi staff
 - ✱ Sader city water treatment plant
 - ✱ Halabja water supply project

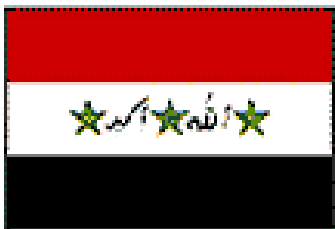

Parsons in Iraq

Taji Military Base Renovation

- ❖ AFCEE Worldwide Environmental Contract
- ❖ Previous home of long range missile program
- ❖ Providing Iraqi Armed Forces facilities needed to defend their country
- ❖ Fast-track renovation and reconstruction of military facilities at the Taji and Armed Forces recruiting stations
- ❖ Renovation of buildings, repair of wastewater treatment plant, and installation of sewer distribution lines

Parsons in Iraq

Taji Military Base Restoration

- ❖ 1,900 staff in restoration program at present
- ❖ 218 buildings being restored
- ❖ Iraqi soldiers providing security
- ❖ June target completion date
- ❖ Commitment to hire and train local Iraqi contractors, suppliers, and labor

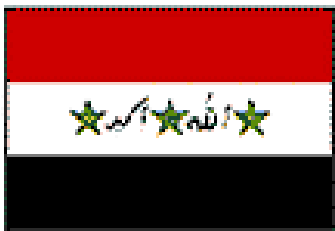

Parsons in Iraq – *Education and Healthcare Facilities*

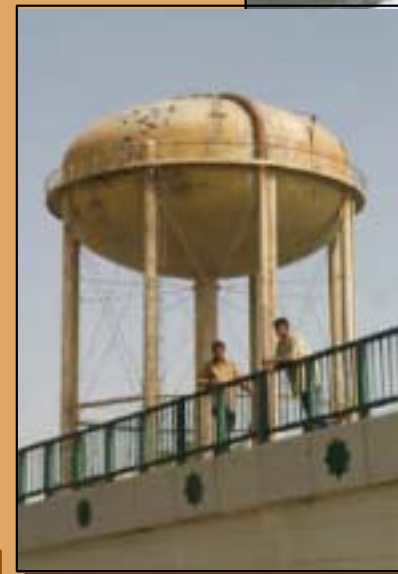

- ❖ Provide DB construction services for public buildings, hospitals, healthcare clinics, schools
- ❖ Renovate and Rehabilitate 80% of Primary and Secondary Schools
- ❖ Hospitals and Outpatient Clinics Throughout the Country
- ❖ Commitment to hire and train local Iraqi contractors, suppliers, and labor

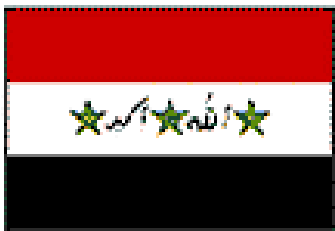

Parsons in Iraq – *SPMO Water/Wastewater Infrastructure*

- ❖ Teamed with CH2MHill
- ❖ Support to the Public Works and Water Sector Program Management Office
- ❖ Integrated team with local Iraqis, promoting communications with Ministries
- ❖ Rebuilding key transmission lines and major collection systems
- ❖ Rehabilitation of structures related to irrigation and rural supplies
- ❖ Solid waste disposal facilities

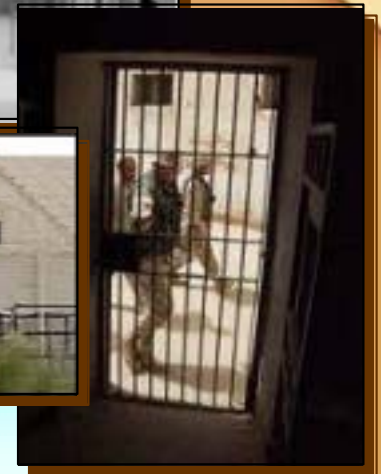

Parsons in Iraq

Security and Justice Design-Build

- ❖ Rehabilitation and construction of bases for the Iraqi security forces, police stations, border control stations, fire stations, courthouses, and prisons
- ❖ Engineering and design of justice facilities
- ❖ Subcontract much of the work to Iraqi firms and suppliers

Opportunities to Work With Parsons

- ❖ Construction Services
- ❖ Transportation and Security
- ❖ Engineering Services
- ❖ Logistical Support
- ❖ Oilfield Services
- ❖ Geotech Services including surveying
- ❖ Trades – Laborers, Engineers, Construction Superintendents, Electricians, Plumbers, Carpenters, Drivers, Guards, Translators
- ❖ Supplies and Materials

Sample Items Procured for Ordnance Management (CEA)

- ❖ Modular buildings
- ❖ SUVs and pickups
- ❖ Radios
- ❖ Satellite phones
- ❖ Tents and furniture
- ❖ Forklifts and small equipment
- ❖ Protective wear
- ❖ Construction material and services
- ❖ Latrines and septic tanks
- ❖ Tools and fences
- ❖ Electrical supplies
- ❖ Armored storage containers
- ❖ Transportation and security
- ❖ Office supplies
- ❖ Medical supplies
- ❖ Heavy equipment
- ❖ Engineering services
- ❖ Geotech
- ❖ Hauling Services

Sample Items to be Procured for USAID/Bechtel

- ❖ Trash compactors
- ❖ Bulldozers
- ❖ Motor graders
- ❖ Front end loaders
- ❖ Articulating dump trucks
- ❖ Water trucks
- ❖ Roll-off trucks and containers

Services and Items Required for Security and Justice

- ❖ Equipment operator
- ❖ Roofers, painters, plumbers, steel workers
- ❖ Civil engineers
- ❖ Roads and parking planners
- ❖ Concrete and rebar
- ❖ Plumbing and sewer line materials
- ❖ Fuel
- ❖ Steel doors and lock sets
- ❖ Remote monitoring equipment
- ❖ Ventilation equipment

Sample Services to be Procured for Health and Education

- ❖ Logistics
- ❖ Healthcare Planning
- ❖ CAD Support
- ❖ Security Services
- ❖ Office Support
- ❖ Office Supplies
- ❖ Engineering
- ❖ Facility Assessments
- ❖ General Contracting
- ❖ Construction Oversight

Sample Items/Activities To Be Procured for RIO-North

- ❖ Materials, equipment and services for the restoration and repair of wells, refineries, gas plants, industrial waste water plants, pump stations, pipelines, LPG and natural gas plants
- ❖ Oil spill remediation services
- ❖ Petroleum systems operations and maintenance specialists

Iraq Oil Infrastructure Contract Awarded to Parsons Worley Team

HOUSTON, TX (January 19, 2004) – Parsons E&C announced today the award of a contract from the U.S. Army Corps of Engineers for future work restoring the Iraq oil infrastructure in the northern area of the country to pre-war production levels. The contract was awarded to the Parsons Iraq Joint Venture, which includes Parsons E&C, based in Houston, Texas, and Parsons Corporation, based in Pasadena, California. The Worley Group of Australia is a teamed subcontractor. The task order contract covers a full range of services to restore the oil production in the northern portion of Iraq with a maximum value of \$800 million.

"Rebuilding the Iraqi oil infrastructure is one of the most complex undertakings of recent times. The Parsons Worley Team is proud to be part of this essential undertaking," explains Bill Hall, Chairman and Chief Executive Officer of Parsons E&C.

"We have a strong team and are proud to continue our long-standing support of the Corps of Engineers. We are committed to helping the Iraqi people rebuild their infrastructure and improve their way of life in the years to come," states Jim McNulty, Parsons Chairman and Chief Executive Officer.

"Worley is delighted that its involvement in this contract will be the first major contribution by an Australian-based company in assisting the Corps of Engineers in rebuilding Iraq's facilities," commented John Grill, Worley Chief Executive Officer.

Parsons E&C and Parsons Corporation have been working continuously in the Middle East on oil and infrastructure projects since the 1940s. Among its many notable projects in the area is the ongoing redesign and restoration program for the Kuwait Oil Company – a contract issued to Parsons E&C following Operation Desert Storm. Parsons began working in Iraq in the 1950s on oil, water, and transportation projects and remained in the country through the mid-1980s.

Worley, an Australian firm specializing in oil and gas projects with over 5,000 professionals worldwide and 41 offices in 18 countries, joins Parsons. The Parsons Worley Team combines long-term and extensive Middle East experience with world-class logistics and hydrocarbon track records. Both Parsons and Worley have offices in major Middle East cities, and collectively, the Parsons Worley Team has over 20,000 professionals worldwide. With 2,000 staff currently in the Middle East, the Parsons Worley Team is in an outstanding position for rapid mobilization.

Parsons E&C provides design, engineering, procurement, construction, and project management services to a global roster of clients in the oil &

Subcontracting Commitments

Goal - %	US Small Business	CPA Partners	Iraqi Owned
CEA	67%	Incl. in Large Business	Incl. in Small Business
RIO North	54% combined		
IIRP II	25% independent of Bechtel		
Taji Base Renovation	50%	Incl. in Large Business	33%
SPMO Water/Wastewater	23% combined		
DB Education & Health	23%	31%	16%
DB Security & Justice	23%	20%	30%

Factors We Consider:

- ❖ Ability to Deliver the Product or Service
 - ☀ Demonstrate your ability to ship goods quickly and safely
 - ☀ Be familiar with importing requirements
- ❖ Past Performance
 - ☀ Provide past project or contract summaries specific to the work for which you are bidding
 - ☀ Provide your current references with name, address, phone, and email addresses
- ❖ Financial Stability
- ❖ Insurance and Performance Guarantees
 - ☀ Demonstrate your ability to provide insurance, bonds or Letters of Credit

Getting Work

- ❖ Lowest price does not always win – more emphasis on best value
- ❖ Majority of subcontract awards will be competitively procured... competition will be intense
- ❖ Register on the web pages and include relevant attachments
- ❖ Follow-up with Procurement and Project Management
- ❖ **Your goal....**

Get on the bidders list

Sum it All Up....

- ❖ **Performance**
- ❖ **Persistence**
- ❖ **Patience**
- ❖ **People**
